REPORT OF SCHOOL BOARD.

In presenting our annual report we are glad to be able to say, that we think our schools this year, have taken a step at least, towards that high standard, which we hope to attain before many years.

We have maintained eight schools of thirty weeks each. Number 13 has had but twenty-seven weeks, on account of sickness, and No. 15 but one term. It was not deemed advisable to continue this last school after the spring term. Our high school has had three terms of eleven weeks each. The course of study has been revised and the pupils are now well classified.

At the beginning of the year, seventeen pupils, having passed the examinations, entered upon a four years' course. There will be no class to graduate this spring. This school in its present condition is a credit to our town. We are also glad to notice the ambitious spirit which has been roused among the older pupils of our schools, to pass the examinations for entrance to the high school. We hope to see a large class prepared to enter at the beginning of another year.

The suggestion in last year's report as regards tardiness has been heeded and quite a decrease in the number of tardy marks in the registers is noticable. The school in No. 6 stands first, not an instance of tardiness being reported during the year. No. 16 comes next with only eight marks for the year. We regret that our village schools, with the pupils most of them within a few minutes walk of the school-house have improved the least.

The repairs this year have only been such as were necessary, except in No. 4. Using the appropriation and part of our general fund, we have thoroughly repaired and furnished this house and take pride in saying, we have no more attractive school-house in town. Water has been obtained in No. 5 from a well dug near the school-house. A small addition to the sum appropriated for this purpose was found necessary to complete this work, but an abundant supply of water has been secured.

In order that our schools shall maintain their present standard, we recommend that as liberal an appropriation as last year be granted us.

We have drawn orders on the district treasurer as follows:

For teachers' salaries,	\$2,436	35
cleaning school-houses,	27	75
care of school-houses,	95	85
wood and sawing,	131	61

TRUSTEES' REPORT

Of the New Boston Cemetery.

The stirring events that have transpired in our nation's history the past year have absorbed thought and attention so much, that the usual occurrences of life have seemed insignificant to the public mind, and only arrested the attention for the time being; but to those homes where "the unwelcome messenger" has entered and some loved one has answered his summons, how insignificant have all things else seemed to that home and those hearts so pained and stricken! It is well that once a year we call your attention to the record of those names who have been summoned away that as a body we may once more bring them to our remembrance and realize with the kindly sympathy that must come to us all, that event with all its sadness and pain, bringing such immense changes to our homes, which shall in turn be our own personal experience. As we peruse the report of our Superintendent annexed herewith we are impressed that quite a large proportion both male and female, of those passed away last year, have been residents of this community for a long time, identified with the interests and welfare of the town some of them for nearly a century. We think of much in their lives to emulate; their love for the best interests of the town; their fidelity to duty; their courage and faith in adversity. Their forms will slumber in our quiet beautiful cemetery, but the fragrance of their memory is still with us, and especially in the bereaved homes.

We renew to you our appreciation of the kindly in-

terest so many of you have manifested in the care and labor in preserving the good appearance of the different lots in the cemetery. While the inclement season prevails none visit the cemetery except from necessity but in the warmer part of the year many visitors from abroad as well as our own people go to this clear spot to get the beauty of the scenery as it lies in all its slightly grandeur as viewed from the various positions of the cemetery; especially pleasing is the new and last addition made with its little shade trees that in a few years will be a beautiful grove. We oftener hear words of commendation than criticism, and we earnestly ask you all to help the tidy appearance by personal attention to your own and also the lots of your absent acquaintances and friends. We expect to see to the care of such portions as are occupied by families now extinct or all the relatives and friends removed from the place, but it should be your care and interest to care for those of your own kin.

The funds accruing from the sale of lots are kept by the treasurer entirely distinct from the bequests left for especial lots, so that these bequests are easily kept account of, and the expenditure of the interest of such bequests is reported to us by our treasurer. Those who propose to leave any bequests for the proper care of any lots in the cemetery after they have gone, would save some trouble to the town as well as trustees of the cemetery, to make such bequest direct to the trustees to be expended by them according to the testator's wish, instead of bequeathing it to the town for the purposes named.

May the closing year of the century be to us all a year of health and peace.
